

## **Nuance® free and open-source licensing notices for NVSL products**

### **Document Overview**

This document includes licensing information relating to free, open-source, and public-source software (together, the “SOFTWARE”) included with or used while developing Nuance’s NVSL products. The terms of the applicable free, open-source, and public-source licenses (each an “OSS LICENSE”) govern Nuance’s distribution and your use of the SOFTWARE. Nuance and the third-party authors, licensors, and distributors of the SOFTWARE disclaim all warranties and liability arising from all use and distribution of the SOFTWARE. To the extent the OSS is provided under an agreement with Nuance that differs from the applicable OSS LICENSE, those terms are offered by Nuance alone.

Nuance has reproduced below copyright and other licensing notices appearing within the SOFTWARE. While Nuance seeks to provide complete and accurate copyright and licensing information for each SOFTWARE package, Nuance does not represent or warrant that the following information is complete, correct, or error-free. SOFTWARE recipients are encouraged to (a) investigate the identified SOFTWARE packages to confirm the accuracy of the licensing information provided herein and (b) notify Nuance of any inaccuracies or errors found in this document so that Nuance may update this document accordingly.

Certain OSS LICENSES (such as the GNU General Public Licenses, GNU Library/Lesser General Public Licenses, Affero General Public Licenses, Mozilla Public Licenses, Common Development and Distribution Licenses, Common Public License, and Eclipse Public License) require that the source code corresponding to distributed OSS binaries be made available to recipients or other requestors under the terms of the same OSS LICENSE. Recipients or requestors who would like to receive a copy of such corresponding source code should submit a request to Nuance by post at:

Nuance  
Attn: Open Source Requests  
1 Wayside Road  
Burlington, MA 01803

Please provide the following information in all submitted OSS requests:

- the OSS packages for which you are requesting source code;
- the Nuance product (and any available version information) with which the requested OSS packages are distributed;
- an email address at which Nuance may contact you regarding the request (if available); and
- the postal address for delivery of the requested source code.
